

Postgraduate Course
6th HUMAN CADAVERIC ADVANCED LAPAROSCOPIC SURGERY COURSE
(Training in Embalmed Cadaver)

PROGRAMME

13rd January 2017

- 9h00 Course Introduction - João Ó'Neill
- 9h30 Advantages of surgical training on embalmed cadavers - Novo de Matos
- 10h00 Pedagogical Methodology - Novo de Matos
- 10h30 Bibliographic discussion and guidance. Distribution of course monography (to be studied in the next 30 days) - Leonor Manaças
- 14h00 Tutorial guidance and discussion of pre-recorded operative demonstration on cadaver (video sessions) - All faculty members
- 17h00

13rd February 2017

- 9h00 Surgery on cadaver: Cholecystectomy • Apendectomy • Nissen Fundoplication
- 14h30 Surgery on cadaver: Manual Gastrojejunostomy • Redo of Nissen Fundoplication • Right Colectomy

14th February 2017

- 9h00 Surgery on cadaver: Nissen Fundoplication • Cholecystectomy • Right Colectomy • Bilateral Anectomy • Cistopexy • Enterorraphy and cistorrhaphy
- 14h30 Surgery on cadaver: Sigmoidectomy • Splenectomy

15th February 2017

- 9h00 Surgery on cadaver: Nissen Fundoplication • Cholecystectomy • Right Colectom
- 14h30 Surgery on cadaver: Sigmoidectomy • Splenectomy

16th February 2017

- 9h00 Surgery on cadaver: Tubal Ligature • Bilateral Anectomy • Cistopexy • Enterorraphy and cistorrhaphy
- 14h30 Surgery on cadaver: Total Hysterectomy • Pelvic Linfadenectomy

17th February 2017

- 9h00 Surgery on cadaver: Tubal Ligature • Bilateral Anectomy • Cistopexy • Enterorraphy and cistorrhaphy
- 14h30 Surgery on cadaver: Total Hysterectomy • Pelvic Linfadenectomy
- 18h00 Final evaluation test
- 19h00 Closing session
- 20h00 Dinner for Participants and Faculty

COURSE DESCRIPTION

The Human Cadaveric Advanced Laparoscopic Surgery Course is an innovative course for scenario-based surgical training. We will present the development of a new simulation system of training minimally invasive surgery, the embalmed human cadaver. The course is limited to 15 participants (General Surgery 9, Gynaecology 6) and begins on the 13rd January 2017 with one full day of theoretical and video sessions, during which we will distribute to all participants a theoretical monograph and a bibliography research plan. One month after that, participants will have three days of practice on cadaver (hands-on). During this practical sessions, participants will be divided by three OR tables and their practice will be made under 6 experts supervision. Teaching quality questionnaires will be distributed to the participants. These questionnaires are anonymous and must be returned to the course secretariat on the last day of the course.

Postgraduate Course
6th HUMAN CADAVERIC ADVANCED LAPAROSCOPIC SURGERY COURSE
(Training in Embalmed Cadaver)

COURSE AIMS

The main aim of this course is the improvement of the participants' skills in laparoscopic surgery through training models very similar to life surgery.

AUDIENCE

Residents of General Surgery and Gynaecology and also Surgeons and Gynaecologists

ASSESSMENT

A variety of assessment tools are used on the course, including:

1. Continuous evaluation of surgical procedures (from 0 to 5)
2. An oral presentation (from 0 to 20)
3. A written test of 50 questions (from 0 to 20) concerning all the theoretical subjects (Monograph and Bibliography research provided one month before)

The final classification of the course is the arithmetic average of nº 1, 2 and 3 classifications.

GENERAL INFORMATION

Contact hours | 36 hours (General Surgery) and 27 hours (Gynaecology)

ECTS | 5

Dates |

13rd January and from 13rd to 17th February 2017

Schedule | from 9 a.m. to 7 p.m.

Course attendance requirements | Participants can't miss any time and any session (theoretical or "hands on")

Admission criteria | Curriculum analysis

Application fee | 25 €

Registration fee | 35€

Course fee | 950€ (General Surgery) and 800€ (Gynaecology)

Numerus Clausus | Course is limited to 15 participants (9GS + 6G)
